The 9 Best Cameras For Beginners [2020 Reviews ...

I learned how to shoot with a manual focus, fully manual film camera, and still have 5 that I shoot with at least semi-regularly, and I have a lot of manual focus Nikon and Hasselblad glass for which I have adapters for my Nikon and Fuji digital systems, so while I don't ONLY use manual focus lenses on my digital cameras, I use them quite a bit.

Does anyone else only have manual focus lenses for their ...

In a manual focus camera, movements to the lens ring adjust the angle of two mirrors. The two images this produces will eventually line up, bringing the scene into focus. Autofocus works on this same principle, however instead of the user judging when the image is in focus, the camera uses an electronic sensor to do the same job.
