Packet Tracer is a very popular network simulator tool for certification exam preparation, particularly for CCENT and CCNA Routing and Switching students. The volume of inquiries for Packet Tracer on the Cisco Learning Network forums is astounding, and we appreciate this high level of interest.

### **Packet Tracer - Cisco**

Packet Tracer is a cross-platform visual simulation tool designed by Cisco Systems that allows users to create network topologies and imitate modern computer networks. The software allows users to simulate the configuration of Cisco routers and switches using a simulated command line interface. Packet Tracer makes use of a drag and drop user interface, allowing users to add and remove simulated ...
