Heart of Louisville | National Trust for Historic Preservation

"The heart of itself is not the beginning of life but is a vessel made of dense muscle vivified and nourished by an artery and a vein as are the other muscles. The heart is of such density that fire can scarcely damage it." Yet he offered a more elaborate mechanical account of the heart, underscoring the relationship between heat and motion.

The History of the Heart

The HEART Trust/NTA, which was formed in 1982 remains a key driver on Jamaica's road to development.
