Zach rated it really liked it. A couple of  
grammatical errors, but on par with what  
I was expecting from a business book:  
inspirational, but surface level.

Usually, you won't have to change this. However, if you find that you are experiencing MAC address collisions in your network, it is possible that one or more Hyper-V hosts have the same range. You can override the default MAC range used by a host by accessing the MAC Address Range tab of the Virtual Switch Manager:
