### **La Nuova Cucina Del Nord Ricette Dalla Scandinavia Ediz ...**

The science of the genomes, or "genomics," initially dedicated to the determination of DNA sequences (the nucleotide order on a given fragment of DNA), has promptly expanded toward a more functional level--studying the expression profiles and the roles of both genes and proteins.

### **Introduction to genomics**

Lesk, along with Karl D. Hardman, wrote one of the first computer programs for generating the schematic diagram of protein structure. It is known to produce one of the best representations of the protein structures and employs the classification scheme for Ribbon Diagrams created by Jane Richardson.
