Trane has been manufacturing high-efficiency, integrated home heating systems for more than a century. A key component to any Trane furnace's efficiency is the proper operation of the unit's pilot light, which ignites the burners to heat a home when they're signaled by the thermostat that the room temperature has dropped below the desired level.

How to Light a Pilot Light on a Trane Furnace | Hunker

The Trane XE80 is a single-stage gas furnace that provide an 80% AFUE rating. The XE80 features an insulated steel cabinet designed for heat retention and quiet operation. It also offers induction venting and a preheat stage, which heats the exchanger before moving air through the house.
